AGRICULTURAL IMPLEMENT WHOLESALERS

MODEL: SIMPLEX 135

For Small Tractors & Ride-on Mowers

The PTO-sweeper Simplex was developed especially for your small municipal tractor and front-mower. Its low weight permits the Simplex to be used for carrier-vehicles with low lifting-power. The 100% PP full bristle brush (\varnothing 400 mm) guarantees a long service life. The broom is adjusted via the support wheels. Standard equipment includes level compensation, swivel control console and mechanical angling. Basic equipment: Incl. A-Frame and PTO shaft.

Attachment systems:

- A-Frame

Optional Accessories:

- Hydraulic Drive on the main brush.
- Collection Bin, Mechanical Tip, Incl. vulkollan rubber wear lip.
- Side brush, hydraulic, fully adjustable, for corner sweeping.

PTO Drive for 540 up to 2100 rpm

Lateral level compensation

Simple sweeping
