

AgriQuip

Tornado Vacuum Machines

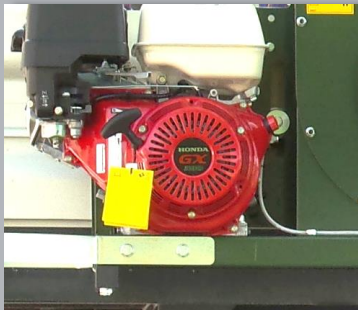

The Tornado vacuum is a compact, high performance vacuum, suitable for clearing large areas such as parks, gardens, sports grounds etc., of grass, leaves and other light weight material (such as plastic bottles and other light rubbish). This vacuum is equipped with a suction pipe (diameter 200mm, length 6m), which is light, wear resistant, reliable and allows a comfortable handling. The suction is created by a fan (diameter 390mm) powered by petrol engine or PTO for tractor versions. There are three available types of vacuum machines on the Agriquip product range.

- * GX390 - Tornado Vacuum with tail board connection HP 13
- * GX630 - Tornado Vacuum with tail board connection HP 21
- * Tornado PTO - Tornado Vacuum with PTO connection Min HP 13

FEATURES

2x engine options

390mm Fan

PTO Model

6m long suction pipe
