

Vacuum Machines

The Tornado vacuum is a compact, high performance vacuum, suitable for clearing large areas such as parks, gardens, sports grounds etc., of grass, leaves and other light weight material (such as plastic bottles and light rubbish).

This vacuum is equipped with a suction pipe, which is light, wear resistant and allows for comfortable handling. The suction is created by a fan powered by petrol engine or PTO for tractor versions.

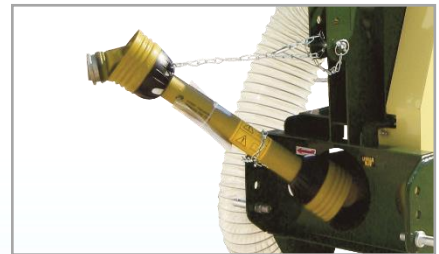

FEATURES

2 engine options

390mm fan

PTO model

6 metre long suction pipe

Rotary ejection pipe - adjustable

Tail board connection
